Ammonium chloride is listed in (EC) 1334/2008 as a flavoring with FL-No. 16.048 and meets the purity criteria for food additives specified in the FAO/WHO Codex Alimentarius (JECFA) as well as in the Food Chemical Codex. The valid limits of the European-, and the US Pharmacopeia are fulfilled. May contain process-related water-soluble particles of up to 500 µm, which do not affect the quality of the product.

Quality Control E-CMI/EQ

The above-mentioned data describes the relevant parameters of the product at the time of issuing this certificate of analysis (CoA). The data is controlled at regular intervals as part of our quality assurance program and is provided for reference only. The contractually agreed quality of the product at the time of passing of risk is exclusively determined by our product specification. Unless specifically agreed by the Parties in writing signed by authorized representatives, no suitability for a particular use shall be presumed or implied based on the CoA and the customer is solely responsible for determining and verifying the suitability of the use of the product for any purpose.
